## EXPERIENCE

### SDLC Partners, Pittsburgh, PA — *Application Developer*

AUGUST 2018 – Present

- Refactor client (Highmark Health Solutions) website pages on their member portal from Dojo to AngularJS. LESS used for CSS. Version control with Git. Task management with RTC.

### BenefitMany, LLC — *Full Stack Developer (remote)*

FEBRUARY 2018 – JULY 2018

- Built custom web applications for nonprofits and small businesses with Ruby on Rails, PostgreSQL, and Vue.js

### Work Hard, Pittsburgh, PA — *Full Stack Developer*

OCTOBER 2017 - JANUARY 2018

- Built web app, including admin functionality, for GS National Insurance with Ruby on Rails, PostgreSQL, React, and Docker

### Zulama (now EMC), Pittsburgh, PA — *Curriculum Developer*

AUGUST 2017 - FEBRUARY 2018

- Used knowledge of computer science concepts, teaching, and GameMaker Studio 2.0 to enhance the online curriculum for the Advanced Placement Computer Science Principles course so that Zulama became an endorsed provider recommended by the College Board

### Replay Foundation, Pittsburgh, PA — *Mobile Developer*

NOVEMBER 2016 - JULY 2017

- Designed and developed mobile scheduling application using microservices with React Native, .NET/ C#, and Microsoft SQL Server for the Replay FX convention (attended by 10,000 people)
- Simplified and enhanced data entry by writing calls to a third-party XML API and adding the ability to save and retrieve images to and from an Azure bucket
- Available for Android and iOS: [academypgh.com/replayfx-companion-app/](http://academypgh.com/replayfx-companion-app/)

## PROJECTS

### List App

- Creating web and mobile app to display grocery items by store that will repopulate based on selected frequency using React with a Rails API, and Bootstrap 4.0
- Twitter Display <http://topicaltweets.s3-website-us-east-1.amazonaws.com/>  
Created web app that displays ten most recent Tweets about one of three subjects selected by user with Sinatra, the Twitter gem, SQLite3/PostgreSQL, React, Bootstrap, deployed through Heroku and Amazon S3
